Lake-Kenosha, IL-WI	4.9%	5.1%	-0.2
Peoria	6.3%	6.2%	0.1
Rockford	6.3%	6.6%	-0.3
Springfield	4.7%	5.0%	-0.3
St. Louis (IL-Section)	5.7%	6.0%	-0.3
Illinois Statewide	6.0%	6.0%	0.0

* Data subject to revision.

CHICAGO—Eight of Illinois' 14 metropolitan (metro) areas experienced decreases in their over-the-year unemployment rate and eight of the metro areas had increases in nonfarm jobs, according to preliminary data released today by the U.S. Bureau of Labor Statistics (BLS) and the Illinois Department of Employment Security (IDES).

"One metropolitan area losing jobs is one too many," said IDES Director Jeff Mays. "While we boost our efforts to help employers connect with qualified candidates, we also need effective policies in place to realize robust job growth in Illinois."

Illinois businesses added jobs in eight metro areas, in which the largest increases were seen in: Lake-Kenosha (+2.4 percent, +10,000), Rockford (+2.0 percent, +3,100), and Springfield (+1.8 percent, +2,000). Total nonfarm jobs in the Chicago-Naperville-Arlington Heights Metro Division increased (+1.2 percent or +43,700). Illinois businesses lost jobs in six metro areas including the Quad Cities (-2.9 percent, -5,500), Bloomington (-1.6 percent, -1,500), and Peoria (-1.3 percent, -2,400). The industry sectors recording job growth in the majority of metro areas were:

Education and Health Services (11 of 14), Leisure and Hospitality (11 of 14), Retail Trade (10 of 14), and Professional and Business Services (nine of 14).

Not seasonally adjusted data compares June 2016 with June 2015. The not seasonally adjusted Illinois rate was 6.0 percent in June 2016 and stood at 12.2 percent at its peak in this economic cycle in January 2010. Nationally, the not seasonally adjusted unemployment rate was 5.1 percent in June 2016 and 10.6 percent in January 2010 at its peak. The unemployment rate identifies those who are out of work and looking for work, and is not tied to collecting unemployment insurance benefits.

Total Nonfarm Jobs (Not Seasonally Adjusted) – June 2016

Metropolitan Area	June 2016*	June 2015**	Over-the-Year Change
Bloomington MSA	92,300	93,800	-1,500

Wayne County	8.4%	7.1%	1.3

South Central Illinois Highlights

Workforce conditions in most counties throughout South Central Illinois changed moderately when compared with one year ago. Stable labor market conditions dominated in the first half of 2016. The data is not seasonally adjusted.

Over the year, employment advances were reported in Transportation and Health Services in South Central Illinois. Payroll gains also occurred in Financial Activities and Retail Trade. Employment expansions this spring were reported in Construction, Recreation, Hospitality and Agriculture. Payrolls also increased in Other Services which includes auto and machinery repair and personal services. Mining, Information, and Government employment steadily decreased during the past year.

Employment opportunities were advertised in Transportation, Health Care, and Office and Administrative Support in the summer of 2016. Job openings also were reported in Sales, Management, Food Preparation, and Production occupations. Workers were needed in Computer Services, Engineering, Finance, and Installation, Maintenance, and Repair. Building and Ground Maintenance workers were also in demand.

The unemployment rate identifies those who are out of work and seeking employment. A person who exhausts benefits, or is ineligible, still will be reflected in the unemployment rate if they actively seek work.

Note:

- Monthly 2015 unemployment rates and total non-farm jobs for Illinois metro areas were revised in February and March 2016, as required by the U.S. Dept. of Labor, Bureau of Labor Statistics (BLS). Comments and tables distributed for prior metro area news releases should be discarded as any records or historical analysis previously cited may no longer be valid.
